Market Analysis

SX Premium

2019–2023 SX units fetch 2.6M–3.0M, nearly double subject pricing. The SX designation commands significant market premium.

Lifecycle Spread

2008–2010 units trade ~1.05M–1.18M. The subject's \$1.295M ask aligns appropriately for a 2012 with complete package.

Import Factor

European listings appear cheaper but land at ~\$1.35M+; subject avoids import risks and downtime.

Value Proposition

At 50% of a late-model SX and only modestly above older 2008–2010s, subject presents a compelling midpoint acquisition.

Estimated Value Range

MARKET INTELLIGENCE SUMMARY

Market Position: The subject's \$1.295M asking price is well-anchored by comparable sales data and sits appropriately within the established market range.

Competitive Landscape: SX models command significant premiums (2.6M–3.0M), while older units establish a floor around 1.05M–1.18M.

Market Intelligence: Current pricing reflects fair market value based on age, hours, configuration, and domestic availability advantages.
